Dear Bill, 12/23/93

Rushing to get responses to large mail in the morning's to avoid the holiday delay.

I've read only the transcripts of your very interesting enclosures and have asked a Bay area friend to see what he can learn from Korff of send me his street address.

Yes, I did read the Russell transcript. It confirms what he told me. He'd turned LBJ down and was confronted with a fait accompli. And the Hoover one.

What Griffin did and said speaks for itself.

Any of them speak only under conditions to their liking.

In 1966 about six of them, maybe five, agreed to do TV a show in NYC until they learned they would confront me alone. They then all copped out, Specter included. He is the one I remember. They had asked for it: WNEW-TV, Metromedia Then.

Hope you've had a fine holiday when you get this. Again thanks and our best,

Harold
